

HOME WORK by m.layth.H for group A ,B class 1 - Fuel Dept -Technical college

ID	Questions	ملاحظة
1	<p>Is the device on a computer,</p> <p>which is responsible for using CD, DVD, and Blu-ray discs</p> <p>() monitor</p> <p>() Optical Drive (CD / DVD / Blu-ray)</p> <p>() memory</p> <p>() cpu</p>	اختر الجواب الصحيح
2	<p>Joystick</p> <p>used in games</p> <p>() out device</p> <p>() input device</p> <p>() both</p> <p>() not above</p>	اختر الجواب الصحيح
3	<p>What is Computer?</p> <p>set of independent physical components (which called Hardware), that are run by a set of instructions (which called Software)</p> <p>() True</p> <p>() False</p>	اختر الجواب الصحيح

<p>4</p> 	<p>three main operations in pc personal computer is input ,processing , output</p> <p>() True</p> <p>() False</p>	<p>اختر الجواب الصحيح</p>
<p>5</p> 	<p>Input Devices:</p> <p>Consists of devices that allow people to put data into the computer in a form that the computer can use Examples are the keyboard and the mouse</p> <p>() True</p> <p>() False</p>	<p>اختر الجواب الصحيح</p>
<p>6</p> 	<p>Peripherals:</p> <p>Any piece of hardware that is connected to computer . Examples are Printer ,Scanner and Modem</p> <p>() True</p> <p>() False</p>	
<p>7</p> 	<p>Output Devices:</p> <p>Consists of devices that translate information processed by the computer into a form that humans can understand . Examples is a monitor , which displays the results of work that is done by the CPU</p> <p>() True</p> <p>() False</p>	<p>اختر الجواب الصحيح</p>

<p>8</p> 	<p>physical components in the computer system like Screen, Cables, Keyboard and printer.</p> <p>() Hardware</p> <p>() software</p> <p>() OS operating system</p> <p>() network</p>	<p>اختر الجواب الصحيح</p>
<p>9</p> 	<p>CPU is also called</p> <p>[] microprocessor</p> <p>[] It's the brain of Computer</p> <p>[] Determine how powerful and fast is the computer</p>	<p>اختر الجواب الصحيح</p>
<p>10</p> 	<p>Parts of a CPU</p> <p>[] Arithmetic and Logic Unit (ALU)</p> <p>[] Registers(Immediate Access Memory)</p> <p>[] Control Unit (CU)</p> <p>[] UPS</p>	<p>اختر الجواب الصحيح</p>
<p>11</p> 	<p>RAM is volatile</p> <p>() True</p> <p>() False</p>	<p>اختر الجواب الصحيح</p>

12 	<p>Memory(RAM) speed is measured in Megahertz (MHz), like CPU speed.</p> <p>() True</p> <p>() False</p>	
13 	<p>This memory is used to keep software, programs and data permanently</p> <p>() Hard Disk</p> <p>() RAM</p> <p>() ROM</p>	اختر الجواب الصحيح
14 	<p>A group of 8 Bits.</p> <p>Memory unit represent 1 character.</p> <p>it is used to measure the memory capacity</p> <p>() Byte</p> <p>() bit</p> <p>() kB</p> <p>() MB</p>	اختر الجواب الصحيح
15 	<p>A small hand-held device. When it is moved, a rolling ball on the underside transmits information to move the pointer</p> <p>() Light Pen</p> <p>() Touch Pad</p> <p>() Mouse</p> <p>() Scanner</p>	اختر الجواب الصحيح

16 	Projectors: device that connect to computer to display output to large board. <input type="radio"/> input device <input type="radio"/> output device <input type="radio"/> processing <input type="radio"/> storage device	اختر الجواب الصحيح
17 	Touch Screen: It is a sensitive screen that receives input from touching it by a finger. <input type="radio"/> Input / Output Device <input type="radio"/> Input Device <input type="radio"/> Output Device <input type="radio"/> Secondary Memory	اختر الجواب الصحيح
